DETAILED ACTION

Response to Arguments

1. Applicant's arguments presented in the Pre-Appeal Brief filed May 12, 2008 (see page 2), with respect to RYU failing to disclose, or even suggest, a "protrusion formed as a column shape on the first emission surface" have been fully considered and are persuasive. The rejection of claims 58-62 and 73 has been withdrawn.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 22-57 directed to inventions non-elected without traverse. Accordingly, claims 22-57 been cancelled.

Allowable Subject Matter

3. Claims 1, 4-6, 9-21, 58-62 and 73 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter:

Applicant teaches a light guide plate having a first and second light emission surfaces, and a light-reflecting pattern formed on the first emission surface. The pattern includes a plurality of dots for reflecting light from the first surface toward the second surface; such reflected light exiting the second surface at a greater angle than light

Art Unit: 2885

emitted by the first surface. Each dot having light reflecting surfaces elongated in a selected direction, with adjacent light reflecting surfaces meeting each other at the elongated edges to form an angle between the adjacent reflecting surfaces.

In a second embodiment, a light guide includes a light incident surface and first and second light emission surfaces, the first emission surface including a plurality of cylinder-shaped protrusions with grooves.

No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically the dots having elongated light reflecting surfaces, with adjacent light reflecting surfaces meeting each other at the elongated edges to form an angle between the adjacent reflecting surfaces, or a plurality of cylinder-shaped protrusions with grooves.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
